

Sta. No. H 46-135

Locality: alaska: Unimak Island

Lat. 54° 33' N.; Long. 164° 44' W. (USC & GS chart \_\_\_\_\_, 19\_\_\_\_)

Water: \_\_\_\_\_

Vegetation: \_\_\_\_\_

Bottom: \_\_\_\_\_

Temp.: 41.0° F

Shore: \_\_\_\_\_

Current: \_\_\_\_\_

Distance from shore: \_\_\_\_\_

Tide: \_\_\_\_\_

Depth of capture: surface water sample 1281 Depth of water: \_\_\_\_\_

Method of capture: taken off rock (Haul 2041)

Collected by: Light House Keeper for SIO

Date: 7:31:1932

Orig. preserv.: \_\_\_\_\_

Time: 8:30 AM

55. Oxycoctus acuticeps 1 ad ♂

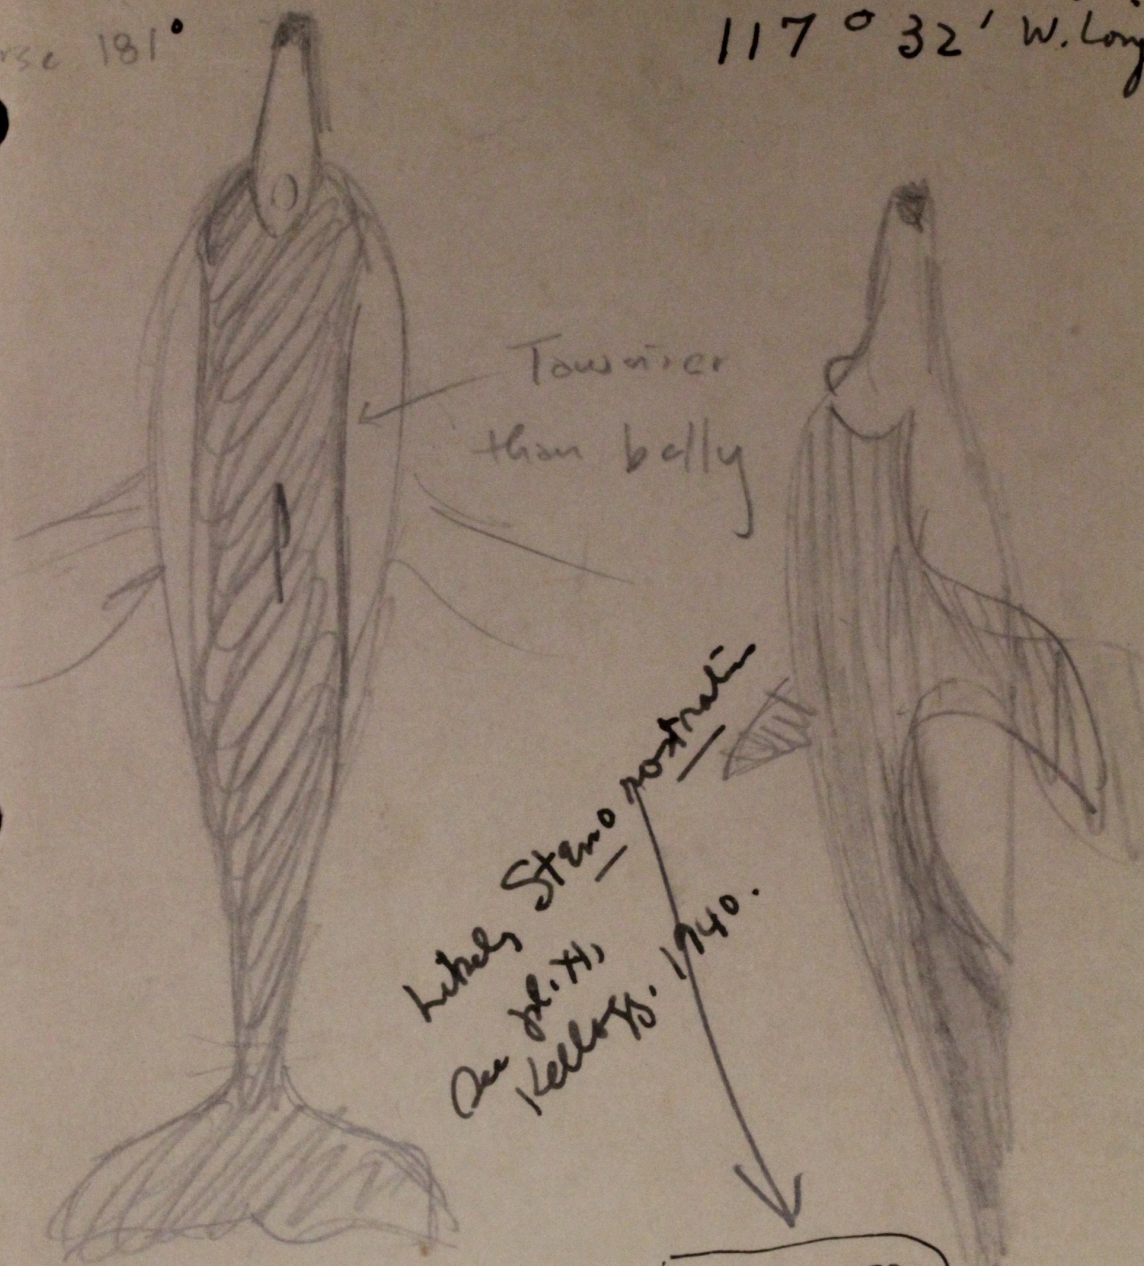

Counted to be sent to Cal. Acad.

Dec 5, 1946

1620

Course 181°

App. position ~~20~~  
31° 06' N Lat.  
117° 32' W. Long.

Probably 20-25 individuals.

Not rearing very high.

Followed "E.W. Scripps"  
for some time

Seen closely from bow

(over)

SEP 24 1956  
Almost  
certainly  
Delphinus  
bairdi - see  
log of 2nd. 9d.
