Dist. offshore: _____ Stream width: _____

Depth of capture: _____ Depth of water: _____

Collected by Rabt. Fry (3128 Canon St Mt. Loma) Thra Clipper 'Patria'

Tide: _____ Date: Sp. V. 49

Method of capture: Bait net

Orig. preserv.: 10% formalin borax Time: _____

(after freezing)

MENTO

34 Xanthichthys lineatus 4 ind., 230-253mm.

Color notes. E. L. Hubbs.

3 specimens with outer part of dorsal + anal bright yellow; and upper, lower & posterior margins of caudal deep blood red with red margin of caudal. The fourth specimen has outer part of dorsal & anal purple brown & the caudal margins broader & orange instead of red; with the orange posterior border about 4 times as broad as the preceding bluish streak. In the 3 other specimen red border about as broad as preceding whitish crescent.

The single specimen has conspicuous pearly spots on nape but there are scarcely evident on body. The 3 have prominent pearly spots one on each scale

~~34 Pleuronichthys coenosus 5 (31.5-112) R. J. K. Feb 59~~
