

Point about midway between

State or Country: Baja California Field No. 450-279
County: Northern District Map: 1
Locality: Punta Calavera on north face Ab. 2 mi. N.
of Punta Calbras on south side of road just short of end of
road, just N. of Temp Sta. 24A. N., Long. W.
Water: salt, clear
Vegetation: moderate Phyllospadix and brown algae;
little Macrocystis integrifolia
Bottom: rocks, boulders, stones, gravel
Cover: a few vertical and horizontal Temp.: 13.74 at mid tide
Shore: on lava reef, much exposed Current: some inwash, from large
Dist. offshore: rocks to 5-20 ft. in deep stream width: waves
Depth of capture: to 5 ft. Depth of water: to 5 ft.
Collected by Carl H. Davis, Laura C. Davis, R. A. Allanson, Kenneth Norris
Tide: -1.7 Date: XII.8.1958
Method of capture: diving, moderately successful
Orig. preserv.: 10% form + borax Time: 1400 - 1545

Little protection by rock walls. Waves regularly
converge strongly. The exposure explains the
limited catch. Three pools worked, all fish saved.

Additional party members, Dorothy Allanson,
Frank + Sybil Barberich
