

State or Country: Galapagos Island Field No. H.51-53

County: _____ Map: _____, 1

Locality: Mangel Pt., Fernandina Id.

Lat. _____ N., Long. _____ W.

Water: salt, clear

Vegetation: _____

Bottom: _____

Cover: _____ Temp.: _____

Shore: _____ Current: _____

Dist. offshore: _____ Stream width: _____

Depth of capture: _____ Depth of water: _____

Collected by Al Flores on "Ruthie B" (tuna clipper)

Tide: _____ Date: ca II:1:1951

Method of capture: Galapagos bait net

Orig. preserv.: brought up in bait tank Time: _____

FEB 27 1951

Al Flores called II:26 to offer fish for aquarium. Picked up that day.

Centropyge passer (Valenciennes)

32. ~~Pomacentrus zosteratus~~ (Gill): 1 fine ad.

brought back alive to Aquarium.

Arrived in good condition.

61. *Blennius brevipinnis*: 1 ad., caught in net
held in outflow from tank. Was crushed

(in screen?) but in good fresh condition

otherwise. Preserved that evening in form.

Presumably taken in same bait set.

Color in form. FEB 27 1951: fine spots of deep dull

red on basal part of P, and on shoulder gill.

Somewhat larger & more diffuse and browner spots

on lower half of head, on snout & lips, & between

P, and lateral line; much more diffuse spots &

blotches of reddish on top of head and on

upper anterior back. Nasal cirri orange. Supraorbital

cirri black at base, blue-grey outward. Red

radii around iris.

Counts taken -
