

State or Country: Ecuador Field No: SID-54-66

County: Map: 1

Locality: Galapagos Islands: Seymour Bay, Santa Cruz Island.

Lat. N., Long. W.

Water:

Vegetation: None

Bottom: Rocky, sandy

Cover: Temp:

Shore: Lava + sand Current:

Dist. offshore: 1000 ft. Stream width:

Depth of capture: Depth of water: 9 fath.

Collected by: Bruce W. Halstead, "Krieger Expedition", School of Trop. & Prev. Med.

Tide: Date: I: 2: 1953

Method of capture:

Orig. preserv.: Time: V: 28: 1954

Flying fish sent to GLO for identification by Dr. Bruce W. Halstead, School of Trop. & Prev. Med., Loma Linda, Calif.

23. Cypselurus collopterus (Günther)

4 adults, all with orig. no. K53-4A, all have viscera & section of muscle removed, no stray eggs found.

S. l.	D	A	Pre-D scales
260	12	8	32
235	12	8	32-33
270	11	9	30
265	12	8	32-33
250	13	9	34

These appear to be typical collopterus.
