Collected by Al Larson, 4212 Somoset, Claremont

Tide: Date: 12 Aug. 1955

Method of capture: spear - "breakaway gear"

Orig. preserv.: Time: mid morning

5 Galeorhinus zyopterus, ad. ♀ 1660 mm
one of 2 sharks swimming in tandem.
Gravid with 30 early embryos ab. 35 mm
avg. length, some of which preserved in
7% formalin. Jaws & skin patch saved.
Rest of shark to Larson. Four embryos
kept in running sea water to determine
whether development will continue.
