Method of capture: hand (shark barely alive)

Orig. preserv.: not preserved Time: _____

X: 27: 1955
Information received by telephone from
John Nichols X: 21: 1955

Shark caught by hand in surf. It
had a hole about 1" in diameter, as
though injured by spear. Was barely
alive when caught. Nichols cut
fish up and gave parts to friends to
eat. Weight estimated as 15-18 lb.
Description in detail could refer
to no other genus than Alopias.
Species presumably:

5. Alopias vulpinus (Bonnetere): 1 h.g.
