

State & Country: Baja California N., Mexico Field No. S1057-80
County: Map: HO 1648 June, 1951
Locality: Guadalupe Island, in Magdalena Cove
at S end Lat. 28° 52.7' N, Long. 118° 16.7' W.
Water: clear, salt
Vegetation:

Bottom:
Cover: Temp:
Shore: Current: rather strong, eastward
Dist. offshore: about 1.2 mile Stream width:
Depth of capture: Surface Depth of water: 10 fathoms
Collected by Carl L. Huber party on S102V "Parliament"
Tide: Date: IV: 19: 1957
Method of capture: dip net under strong light over side
Orig. preserv.: - (non preserved) Time: 1930-2050

40. *Trachurus californicus* connects few?
12 *Trachurus symmetricus* (Agass.) many

Only fish seen under light; none
caught; larvae seemed absent

The jack mackerel had earlier gathered
about ship in light for several
minutes; later attracted to our light
over side of ship.

Larus michelini came to light - see
running notes.

Carl L. Huber
