The following data sheets (51061-332 thru 347) comprise, mostly, myctophids collected by Riezo Ishiyama aboard the Training Vessel "Koyō-Maru" of the Shimonoseki College of Fisheries. Specimens given to SIO.

All collections were made in the month of July, 1959, in the general area of 09°03' N, 128°40' W, to 06°54' N, 135°14' W.

The gear used was a 1 1/2 meter, round, net, towed at the surface at about 3-4 kts for 15 or 20 minutes. The anterior portion of the net was of 3-4 mm mesh and the posterior of 1 mm mesh.
