

State or Country: Mexico  
County:   
Locality: Gulf of California  
Field No. 84-26  
Map: Turtle Exped., Sta. 6, Tow 9  
Lat. 26°05' N., Long. 110°24' W.  
Water:   
Vegetation:   
Bottom:   
Cover: Temp.:   
Shore: Current:   
Dist. offshore: Stream width:   
Depth of capture: Shirley Inland Depth of water:   
Collected by ~~Shirley Inland~~ aboard R/V Oconostota  
Tide: Date: 21 July 1974  
Method of capture: Neuston Net - 1 m., 505 m  
Orig. preserv.: Time: 2025-2125

|               |                                       |                      |
|---------------|---------------------------------------|----------------------|
| 42            | <i>Coryphaena equiselis</i>           | 3 (~8-21)            |
| 42            | <i>Coryphaena hippurus</i>            | 2 (~7-9)             |
|               |                                       | + 5 (#41-90)         |
